I have known Yigal Rechtman for over twenty years and have always considered him one of the smartest people in the room in any setting. His technical expertise, together with his ability to think strategically and act tactically, make him a formidable forensic consultant and expert witness.

He is relentless in his pursuit of quality client service and he delivers with a warm and calm demeanor that puts everyone at ease.

I endorse Yigal wholeheartedly.

I have known Yigal Rechtman for eight years, during which he has been providing professional services to clients in accounting and technology. Yigal brings a high degree of perceptiveness to every client situation that distinguishes him from most other practitioners. A prolific writer and popular speaker, I have had the pleasure of hosting his presentation on data forensics in the Vista operating system at the NYSSCPA Litigation Services Committee.

Yigal's committed to delivering consistently high quality client service that exceeds expectations. I recommend him without any reservation.
